

## PAINS NEARLY DOUBLED ME UP

Nothing Helped Me Until I Took Lydia E. Pinkham's Vegetable Compound.

Wyandotte, Mich.—"For the last four years I have doctored off and on without help. I have had pains every month so bad that I would nearly double up. Sometimes I could not sweep a room without stopping to rest, and everything I ate upset my stomach. Three years ago I lost a child and suffered so badly that I was out of my head at times. My bowels did not move for days and I could not eat without suffering. The doctor could not help me and one day I told my husband that I could not stand the pain any longer and sent him to the drug-store to get me a bottle of Lydia E. Pinkham's Vegetable Compound and threw the doctor's medicine away. After taking three bottles of Vegetable Compound and using two bottles of Lydia E. Pinkham's Sensitive Wash I could do my own housework. If it had not been for your medicine I don't know where I would be today and I am never without a bottle of it in the house. You may publish this if you like that it may help some other woman."—Mrs. M. A. B. STENDER, 120 Orange St., Wyandotte, Mich.

### CARE OF SEED CORN

If the recent snowfall is an indication of weather to follow, the Agronomy Department of the College of Agriculture recommends that seed corn be dried and stored as soon as possible. Corn containing about 13% of moisture should withstand any temperature that comes into Kentucky during the winter season. Most of the corn that goes into the crib now will have from 15 to 25% of moisture and it is very evident that with this high moisture content the seed corn should be given special care in order to have it come through the winter in satisfactory condition. Seed corn placed around a brick chimney in the attic with a living room stove below or similar warm place, will produce a higher yield per acre than corn that has not been so well dried; for all the undried seed will germinate and produce a good stand in the spring.

### BEECHER WRITINGS AND RELICS BURNED.

Priceless manuscripts and relics written and collected by Henry Ward Beecher, including many sermons in his own handwriting, were consumed by a fire early Wednesday, which destroyed the Sunday school building adjoining the historic Plymouth church, Brooklyn, where the famous pulpit orator was pastor for many years. The old church edifice itself, erected in 1849, narrowly escaped destruction.

In their efforts to save the main edifice the firemen had to break ten memorial stained glass windows.

### BIG EGG YIELD

"From a small flock of hens I now get 20 to 25 eggs per day, whereas before giving them Dr. LeGear's Poultry Prescription, I only received three or four. Its cost has been repaid to me over and over." So writes Mrs. J. W. Montgomery, Tunnell Hill, Ga.

You should increase your yield now, while prices are high, through Dr. LeGear's Poultry Prescription. It is a tonic which builds up the hen's strength and vitality, and stimulates the egg-producing organs.

For 28 years Dr. LeGear has been recognized as America's foremost expert Poultry breeder and veterinarian. Any time your poultry or stock are ailing, it will pay you to get the proper Dr. LeGear Remedy from your dealer. It must give satisfaction, or your dealer will refund your money. (adv)
